WORK EXPERIENCE

Software Engineer

Anchan Technologies I skardu

2022 -coun

As a Software Engineer at Anchan Technologies, I specialize in mobile app development with a strong focus on React Native. With a wealth of experience and expertise in this dynamic field, I am responsible for designing, developing, and maintaining cutting-edge mobile applications that meet the diverse needs of our clients.

With a passion for innovation and a commitment to staying up-to-date with the latest trends and best practices in React Native development, I take pride in creating robust, user-friendly, and efficient mobile applications that make a positive impact in the digital world. My work as a mobile app developer is not only a profession but also a reflection of my enthusiasm for creating exceptional user experiences.

PROJECTS

• Kids Mode Application:

The Kids Mode Application provides essential control for parents, safeguarding a secure digital space. It features content filters for videos, images, files, and apps, while also enabling precise time restrictions. These capabilities foster responsible device usage and a balanced lifestyle for children.

- **FRAME WORK:** React Native
- **Language:** Java Script
- **Data Base:** Sqlite

• Insurance Application

The Insurance Application offers secure access for manager. Managers can add Sales Managers, Sales Representatives, and clients. Sales Managers and Representatives streamline data management, while Representatives also communicate with clients via email about their installments, enhancing client satisfaction.

- **FRAME WORK:** React Native
- **Language:** Java Script
- **Data Base:** Server

• Grocery Application

The Grocery Application offers a seamless user experience. They can effortlessly add items to their cart or wishlist, providing convenience and flexibility in their shopping journey. Moreover, users can place orders or remove them as needed, and they have the option to rate and view product ratings, enhancing the overall shopping experience.

- **FRAME WORK:** React Native
- **Language:** Java Script
- **Data Base:** Server

• Math With Fun

Math With Fun is an engaging educational app that allows users to learn basic mathematics while enjoying interactive gameplay. Users can test their skills by solving math problems, and if their answers are correct, they progress to the next level. In case of incorrect answers, the app provides feedback and encouragement, making learning both enjoyable and educational.
